FRUITLAND INSTITUTE NEWS.

The esteem in which Rev. W. F. Staley of Winston-Salem is held at Fruitland is attested by the fact that he recently conducted his fifth series of special meetings in the church here. He has been coming to Fruitland for ten years or more, and he always has a cordial welcome in store for him.

Rev. J. D. Moore of Raleigh, Secretary of B. Y. P. U. work in North Carolina, will lecture to the school and community people Wednesday night of this week.

Friday night, an oratorical and reading contest will be held in Asheville, in which Fruitland Institute and Mars Hill college will be represented. The winners in this contest will represent the school in a contest in which all the

mountain schools will take part. This contest will be held at Ridge Crest in June. Mr. Clarence O. Ridings of Polk county and Miss Della Wade of Saluda will be representatives from Fruitland.

The basket ball season has closed and already the click of the base ball bat is heard around the school. Only one game has been played so far, that with Christ school. Several other games are on the schedule, and with careful practice we hope to have a winning team.

Handy Men of Iceland.

There are no trades or guilds in Iceland, every man being compelled to depend upon his own skill for his supplies. The natives make their own shoes, shoe their own horses and manufacture their saddles. A few artisans are found in the capital—for example, a bookbinder, a jeweler and others.

THE INGLESIDE SOLD.

C. S. Hobbs, Prominent Business Man of Greenville S. C., Buys Property From E. E. Clement.

The Ingleside has changed ownership within the past few days when C. S. Hobbs a prominent merchant of Greenville, S. C., purchased this valuable property from E. E. Clement, of Campobello.

An exchange of real estate constituted the majority of the deal which is said to have been valued in the neighborhood of \$15,000. Mr. Hobbs is understood to have purchased the property as an investment and will continue to lease the same.

Mr. Clement, the former owner, was in the city Tuesday to close another deal by which he became the owner of a lot near Laurel Park. He states that he will not bring his family to Hendersonville for the entire summer as heretofore but will visit here during August.

Test of the Paretic.

On account of his muscular weakness the handwriting of the paretic will show a characteristic tremor. His defective memory may be exhibited by asking him to write down some foolish sentence like "The Fourth of July comes on October 15 of this year," and he loses track of the word-succession after putting down two or three. The neuraesthetic could remember this much.

Home Paper Stands With Public School For Betterment of Our American Life

IT has been well said that the great PUBLIC SCHOOL SYSTEM is the BACKBONE of the AMERICAN NATION. Something else can be said just as truly. It is this: The BACKBONE of the PUBLIC SCHOOL SYSTEM is the AMERICAN WOMAN.

And that backbone has often been strained to the BREAKING POINT.

Our woman teachers here and all over the land are spending the best years of their lives for the young. They are spending these best years very often under TRYING CONDITIONS—poor pay, overcrowded classrooms, insanitary quarters, curtailed facilities, small thanks.

The backbone must be strong, but not strained.

THIS PAPER LABORS EARNESTLY TO IMPROVE OUR LOCAL EDUCATIONAL CONDITIONS. IT RECOGNIZES THAT OUR SCHOOL SYSTEM IS GOOD, BUT IT ENDEAVORS TO BRING ABOUT STILL FURTHER IMPROVEMENTS FOR THE SAKE OF THE CHILDREN, FOR THE SAKE OF THE TEACHERS AND FOR THE SAKE OF THE TAXPAYERS. WE WANT OUR EDUCATIONAL EFFICIENCY TO BE OF THE HIGHEST. GOOD SCHOOLS BOOM A TOWN. THEY ARE THE FIRST THING THE MOTHER ASKS ABOUT WHEN THE NEW FAMILY MOVES IN.

This paper not only works for the betterment of school conditions, but it chronicles all the SCHOOL NEWS. If you are interested in your home schools and in local educational news you will find the constant companionship of this paper of especial value.

FOR YOUR OWN INFORMATION AND FOR THE BENEFIT OF YOUR CHILDREN KEEP IN TOUCH WITH OUR LOCAL SCHOOL AFFAIRS AND WITH EDUCATIONAL MATTERS THROUGHOUT THE COUNTY. THIS HOME NEWSPAPER IS PRACTICALLY THE ONLY MEDIUM WHICH SUPPLIES THIS INFORMATION.

Nature's Protection.

It is a curious fact that when a fish becomes blind it turns almost black in color. Nature's efforts toward protective coloring tends to make the fish the color it sees in its surroundings. Fish in a pool with light-colored walls will be much lighter in color than those of the same species where the surroundings are dark.

Auntie Evidently Not a Venus.

A maiden lady said to her little nephew: "Now, Johnny, you go to bed early and always do so, and you'll be rosy cheeked and handsome when you grow up." Johnny thought over this a few minutes and then he observed: "Well, auntie, you must have sat up a good deal when you were young."
